

PT Micro

Small Footprint. Big Results.

Built by labeling engineers. Designed for your production line.

At PrinTrayce Systems, LLC., we engineer labeling solutions to solve inefficiencies in real-world applications. The **PT Micro** is an industrial-grade, ultra-compact labeler that prints, cuts, and applies variable data labels in real time – with no liner waste.

Whether you're labeling shipping boxes, shrink-wrapped goods, or pharmaceutical cartons, the **PT Micro** delivers high performance in tight spaces – on the top, side or front of any package.

Why PT Micro?

- **Ultra-Compact Printer** – Fits 7" x 7" footprint
- **Variable Data Printing** – Print any 1D or 2D and text on-demand
- **Zero-Waste Linerless Labels** – Direct thermal printing, no backing to discard
- **Automation-Ready** – Seamless integration with PLCs, PCs or touchscreen controls
- **Location Flexibility** – Use as a standalone or mount on your equipment
- **Customizable Format** – Print widths from 1" to 3"

Multi-Industry Use

- Packaging lines (CPG, Food & Beverage, Pharmaceutical)
- Industrial product tracking
- E-commerce & distribution
- Compact manufacturing operations

**Let our team customize a solution fitted to
your specific application needs.**

*Size not to actual scale
